Expert testimony will be given from the following panelists on four key topics:

- **Health, mental health, and behavioral health:** This session will increase the Commissioner’s understanding of the systems of health services provisions available for Native children in the region (including physical, behavioral, and mental health, and traditional and cultural services).
- **Education and early childhood development:** This session will explore supporting Native students by incorporating Native language and culture into educational systems at all levels of

education, and discuss the importance of early childhood programming serving children 0–5 in Native communities. like Head Start, childcare, pre-kindergarten, and home visiting.

- **Child welfare, juvenile justice, and violence:** This session is to explore the issues around child welfare in Native communities in the region, including addressing jurisdictional issues related to the implementation of the Indian Child Welfare Act by improving state-local-tribal collaboration, and building tribal capacity to prevent and respond to child abuse and neglect and related issues, and the efficacy of the juvenile justice system for Native children, youth and communities and the disproportionate rates of arrest, detention and incarceration among Native youth compared to non-Hispanic Whites.
- **Systems innovations and best practices in Native communities.** This session will highlight cross-system models, innovations, and best practices to meet the needs of Native children in a seamless and coordinated way.

The public can submit oral and written testimony, as well as questions, at any time to [email@commissiononnativechildren.org](mailto:email@commissiononnativechildren.org).
